Request Summary

Result	Percentage
PASS	99.89%
FAIL	0.11%

Top Errors

Error Type	Count	Percentage
500/Internal Server Error	32	100%

Conclusion:

The JMeter performance test executed successfully with a **99.89% pass rate** and a **0.11% failure rate**. Most of the failures were caused by **500/Internal Server Errors**. Overall, the application performance and response times are within acceptable thresholds, indicating a stable system under load.
